<tbody>
<tr>
<td><strong>Arabidopsis Biological Resource Center</strong></td>
<td>The ABRC collects, preserves, reproduces and distributes diverse seed and other stocks of Arabidopsis thaliana and related species. Resources are donated by researchers from around the world. More than 100,000 samples are shipped annually to researchers and educators from 60 countries. ABRC and NASC aim to mirror their seed stock resources.</td>
<td>Ohio State University, Dave Somers Project Lead</td>
</tr>
<tr>
<td><strong>Carlson Stock Art</strong></td>
<td>Life Science Illustrations: Botany</td>
<td>Dave Carlson</td>
</tr>
<tr>
<td><strong>Multinational Arabidopsis Steering Committee (MASC)</strong></td>
<td>The Multinational Arabidopsis Steering Committee (MASC) aims to strengthen international collaboration and coordination, to reduce redundancy and to help in guiding the community in making progress on projects that can be successful only by combined international efforts.</td>
<td>Geraint Parry</td>
</tr>
<tr>
<td><strong>NCBI Bioinformatics Workshop Lessons</strong></td>
<td>Recorded from Wash U/NCBI workshop. Lessons include: NCBI Resources for Animal and Plant Genomics Research, Update on NCBI BLAST and Other Sequence Analysis Tools and NCBI Resources for Gene Expression and Genetic Variation Research</td>
<td>NLM, NCBI</td>
</tr>

- **Plant Illustrations at FigShare** —
  - **Resource Link**: Plant Illustrations at FigShare
  - **Description**: A collection of illustrations and pictures of plants, roots, shoots, inflorescences, …
  - **Maintained by**: Erin Sparks, Guillaume Lobet, Larry York and Frédéric Bouché
  - **Tags**: illustrations, education_outreach

- **Plantae Collection of On-Line Plant Biology Courses** —
  - **Resource Link**: Plantae Course List
  - **Description**: Curated collection of on-line plant biology, bioinformatics and genomics courses for distance learning.
  - **Maintained by**: ASPB, Plantae
  - **Tags**: education_outreach, covid_19, bioinformatics

- **TAIR Webinar Series I** —
  - TAIR is offering a series of Zoom webinars covering a range of topics for novice and advanced users. Each webinar will be limited to 100 participants but will be offered twice to accommodate participants from different time zones. We will also make a recording available online.
  - Please register for the session(s) you want in order to receive information on how to log in via Zoom. To register, click on the date/time for the webinar(s) you would like to attend and follow the instructions.
  - **Tags**: education_outreach

- **Teaching Tools in Plant Biology** —
  - **Resource Link**: Teaching Tools in Plant Biology
  - **Description**: Lessons and materials for teaching plant biology concepts.
  - **Maintained by**: ASPB, Mary Williams
  - **Tags**: education_outreach

- **The Arabidopsis Book** —
  - **Resource Link**: The Arabidopsis Book
  - **Description**: Freely accessible, peer reviewed articles about everything Arabidopsis. Written by experts and wide ranging in coverage, it is the definitive guide.
  - **Maintained by**: American Society for Plant Biology (ASPB)
  - **Tags**: education_outreach, general
