

TAIR Presentations

This portal contains several PowerPoint presentations given by TAIR staff at a variety of meetings and conferences.

See more presentations on the [Phoenix Bioinformatics Slideshare Account](#)

TO DO: download and reupload presentations

21st International Conference on Arabidopsis Research - June 06-10, 2010. Yokohama, Japan

Making the Best Use of TAIR Tools and Datasets (presented by Philippe Lamesch)

Tips for Accessing Gene Function Data (presented by Donghui Li)

New Data and Tools at TAIR (presented by Eva Huala)

American Society of Plant Biologists - July 31 - August 4, 2010. Montreal, Canada

Plant Ontology and Gramene's Gene Annotation Workshop

TAIR Resources for Plant Biology Research (presented by Kate Dreher) Saturday July 31, 8:00 am - 12:00 pm

TAIR: Bringing Together Data for the Global Plant Biology Community

Part One (presented by Phillippe Lamesch) Monday August 2, 8:00 - 9:30 pm

Part Two (presented by Kate Dreher) Monday August 2, 8:00 - 9:30 pm

Lehman College, CUNY (City University of New York) - September 13, 2010. NY, USA

Biocuration: Helping Researchers Harness the Data Explosion at TAIR and the Plant Metabolic Network (presented by Kate Dreher)

University of California, Davis - October 11, 2010, CA, USA

Putting TAIR and the PMN to work for you: Tips and Techniques for Accessing Data for Plant Biology Research (presented by Kate Dreher)

22nd International Conference on Arabidopsis Research - June 22-25, 2011. Madison, Wisconsin

Gene structure curation at TAIR (presented by Philippe Lamesch)

Gene function annotation at TAIR (presented by Donghui Li)

Community annotation: coupling data submission with publication (presented by Donghui Li)
