- [Nottingham Arabidopsis Stock Centre \(NASC\)](#) —

Resource Link	Nottingham Arabidopsis Stock Centre (NASC)
	
Description	The Nottingham Arabidopsis Stock Centre (NASC) provides seed and information resources to the International Arabidopsis Genome Programme and the wider research community. NASC and ABRC have a distribution agreement. NASC distributes to Europe and ABRC distributes to America. Laboratories in other locations may establish their primary affiliation with either centre.

• [Arabidopsis Biological Resource Center](#) —

Resource Link	Arabidopsis Biological Resource Center (ABRC)
	
Description	The ABRC collects, preserves, reproduces and distributes diverse seed and other stocks of Arabidopsis thaliana and related species. Resources are donated by researchers from around the world. More than 100,000 samples are shipped annually to researchers and educators from 60 countries. ABRC and NASC aim to mirror their seed stock resources.
