

# GemMaker

Resource Link	<a href="#">GemMaker</a>
	 <b>GEMmaker</b>
Description	GEMmaker is a <a href="#">Nextflow</a> workflow for large-scale gene expression sample processing, expression-level quantification and Gene Expression Matrix (GEM) construction. Results from GEMmaker are useful for differential gene expression (DGE) and gene co-expression network (GCN) analyses. The GEMmaker workflow currently supports Illumina RNA-seq datasets.
